EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

2. The application has been amended as follows:

In The Claims:

Cancel claims 1 and 2, which were non-elected without traverse.

3. Claims 3, 4, and 6-13 are allowed.

4. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to suggest the claimed bonding stage, particularly a supporting member with an inner space that is substantially filled with a ceramic insulation material.

As noted in Applicant's response filed 6/20/05, Kuibara et al (US 2003/0150563) teaches a supporting member that supports the placement member and has an aperture portion that is joined in an airtight seal to the placement member, however the inner space of the supporting member is hollow. There is no suggestion to substantially fill the inner space of the supporting member with a ceramic insulation material.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
